
AR vid on Tara Tainton

Posted by Delightful - 2010/08/04 23:33

A bit expensive but "Genius Chemistry Student Experiments on His Teacher to Take Her Down a Notch" is probably the best age regression vid I've ever seen. Although "Fantasy-Come-True: Principal Transforms into your Cheerleader Girlfriend" and "Everything Changes When You Hand Me a Piece of Bimbo Blow Bubblegum" are pretty good as well.

Is it a mental AR vid, or is a a physical AR. I like the premise, but I don't want to spend that much on a mental only video. Still tempted though...

Someone should just rip it to a torrent.

Does she wear a diaper, or is it just sucking a pacifier?

Okay, bigger questions: Worth the money? How far down does she go? And yeah, anything babyish other than the pacifier?

Thanks.

It is 44 minutes long, and while she does mentally revert to an infant, that part is only around 5-7 minutes. Overall... I am not a mental AR person, so it was not worth the \$46.99 price tag. But if you are into mental AR it may be a good one... just damn expensive...

Might be best to just wait.

If you look at other videos on the site that have been available for a few months, at least, they're generally down to 15-20 bucks. So, sooner or later, they'll bump this down to a price more affordable for the average 'enthusiast'.

Could maybe someone who has seen all three of these particular videos describe what happens in them in as much detail as possible?
Please?

hey guys i just purchased the film about the teacher who gets regressed and I just want to say don't even bother i red one review about how long she acts like a baby and its true its only about 5-7 mins long, and also she's butt naked only with a baby pacifier, a baby bib on her neck and trying to suck on a baby bottle with no milk in it, and she's not wearing a diaper, but the acting was good but wished it was longer but as I said don't buy it:unsure:

acting was poor. But 5-6 minutes per regression stage is alright for a 40 minute length video. It's a build up to a little

nudist crawling around sucking her dummy.

Okay, but what about the other two?
What happens in them?
What are they like?

I wouldn't say the acting is poor considering we're talking about amateur fetish on the internet. It's not going to be Shakespeare.

One thing I haven't seen mentioned is that there is also a bit of foot play and toe sucking when she is regressed. It's brief but probably worth a mention.

This thread also might be a good place to discuss other similar fetish material on the internet. I would recommend amateurfetishvideos.com.

This video has a regression to various stages:

This video has a regression to babies:

There's a lot more material on that website, but keep in mind that no one is going to be nominated for an Oscar. Set your expectations accordingly.

Just finished watching the Tara video and I have to say, personally, I loved it.

To put the negatives first; it should have been 10 to 15 minutes shorter, which would have made it cheaper as well. Much of the first half could have been compressed. Given the other seemingly magical clothing changes there also really should have been diapers. To preserve the nudity at the end she could have just ripped them off like a two year old. Maybe a rattle too to replace her ruler, heh.

Other than that, I was happily impressed. As to the acting, for porn it was rather good. Seriously, most porn acting I've seen gives me headaches. Yeah, Tara was a little over the top, but for the subject it worked nicely. Her eye movements and expressions were good too, managing to make her look more innocent as the video went on. The editing wasn't bad either and it actually surprised me when she stood up with the yellow skirt on, showing a change to her teen years. The camera angles and close ups emphasizing her legs, breasts, face and shoes worked well, again showing off the subtle

changes whether they were from fishnet stockings to bare legs, buttoned blouse to open shirt, or high heels to flats to barefeet. The dialogue was wordy early on but there are some nice comments and foreshadowing in there. Overall I adored the slow changes of hair and clothing and mannerisms and comments. She sold me, especially once she hit 'childhood'. Some very believable actions and comments there.

On a side note, it was just so nice to hear a regressed character convincingly whine and sound scared of getting a spanking for wetting her panties. She even looked scared of what her mommy would do to her. I love the infantilist sites as a whole, but they rarely get regression right for me. They are much too warm and fuzzy about it with the girls most of the time just turning into happy little idiots for their caretakers.

Anyway, wanted to add my thoughts. I'm actually considering getting those Amateur Fetish videos now; 'Secretary' and 'Regression Cream 2' mainly. Will let you know if I do.

Oni.

Bumping this thread with a couple of new mental regression videos:

See "Infanto Worm" and "Bopo's Wonder Baby" at <http://clips4sale.com/studio/3308/>

There is also some mental AR in part 2 of "Going to Dr. Beauregard" at <http://clips4sale.com/studio/28209/>

Just got infanto worm. Awesome combo, vore/AR. Horribly overacted. Her acting made the Emperor in Revenge of the Sith seem reserved. However it might be just a little high priced for some. Get it if you absolutely have to, otherwise wait for the price to go down.
