Awesome AR scene, I hope to see an AR scene like that in a Tv show, live action Movie or Tv commercial one day.

An oldie but a goodie; it's always nice to see this awesome AR again! Thanks for sharing! ^u^

And you're right, I wish more live-action movies or TV shows had AR like that; AR in live-action (especially with process) is rare to begin with, but it's almost exclusively male anyway; not that I mind male AR, I just wish more of it was female for a change... :(

Literally the main reason I got AR as a fetish was because I like Ai in Detective Conan
